ISSUE 12

OPERATIONAL UPDATES

EASTER CLOSE

We will be closed Good Friday and Easter Monday, but open as usual all other dates.

COLLARS

A reminder to ensure your dog wears a collar when attending daycare. If they wear a harness we do remove this for the day as its too much material for your dog to wear all day, as well as other dogs loving to chew and play with it.

STORM DAMAGE

None of you could have escaped the large tree falling down in storm Ciara. Thankfully no-one was injured but as you will have seen it's done a lot of damage, namely to the shed and fencing. The ground is very saturated so we are not able to get onto the fields with the machinery we need to clear the tree away, so it will be late spring/early summer before we can remove the tree and start the repair work. The tree has fallen into the puppy/little dog play field so we will have to shuffle the dogs around when the weather improves and we can start using the fields again. But hopefully we'll have the area in use again as soon as possible.

CLIENT REVIEWS

Your feedback and reviews mean an awful lot to us and as a small business is key to our growth. May we kindly ask that you leave us a review on either our face book page or Google and share your experience of us and our service to you and your pup.

WEBSITE GALLERY

I post the most liked pictures from our social media onto our website gallery for each month, so please take a look.

TEAM UPDATES

ALIX

Alix joined the team in December and owns a beautiful 3 year old Siberian Husky, called Blue. Alongside being a country/animal girl she also plays netball and enjoys everything related to beauty and runs her own eyelash business.

CHLOE

For the second consecutive year Chloe qualified for Crufts. She participated in the Young Kennel Club (YKC) Large ABC and YKC 18-24 Graduates. Last year she won her class and this year she came 5th and 6th. She has done amazingly well, successfully competing all over the country to qualify and then make it to Crufts. I'm sure you all join me in congratulating Chloe on an amazing achievement.

DOG A-Z

Continuing with our dog A-Z so we can introduce all of your dogs play mates, this issue we are introducing dogs M, N O and P.

MABEL:

Mabel is a gorgeous golden cockapoo who has been coming to PawPrints since she was a tiny 12 week old pup! She's affectionate, super wiggly and loves nothing more than to be out in the field during the sunshine, having 'zoomies' with her cockapoo friend Bodie!

MABLE:

Mable, sister to Henry (last newsletter) is a very bouncy spaniel who loves having zoomies with her friends almost as much as she loves having her lunch. Always on a hunt for treats and has definitely mastered the puppy dog eyes! She adores being centre of attention, and how can she not be! Such a beautiful girlie.

**MADDIE:**

Maddie is a beautiful Manchester Terrier. In the winter you will usually find Maddie hiding under one of the heat lamps, but in the summer her energy perks up and she loves to run about with all the young pups in the fields, if they can keep up with her of course!

MAISIE:

Maisie is a lovely sweet spaniel. She is very intelligent and obedient and enjoys being with all of the other dogs in the "mid" group. Her special friends are Daisy, Flossie and Buddy (all black spaniels). She loves to chase around and play with them. Maisie is very affectionate and loves a cuddle. If we ever sit down she will be the first to jump up on our laps for some love!!

**MARTIN:**

When black and tan dachshund Martin first started at PawPrints he was reserved and nervous, but it wasn't long before he came out of his shell and began socialising with other dogs and showing us all his many clever tricks! Martin's favourite things to do include a good game of tug, and to join in chase games around the bark chip, not being picky which other dogs are involved!

**MILO:**

Milo or smiley miley as we call him because of his cheeky grin is a happy playful dog who has been coming to Paw Prints since he was a puppy. He is definitely a ladies man and loves playing with Labs Jelli, Jemma, Gertie and Flo a Romanian rescue. His best friend is Winston a young retriever, they met as puppies at Paw Prints. Milo always arrives full of energy but by the end of the day we have to wake him up to go home.

MILLIE:

Millie has grown into a really confident little pup with a lot of energy. She loves playing with her friends Zelda, Finn, Otto and Coco, as well as having lots of cuddles. She's always in the middle of the mayhem no matter what's going on and its hard to believe we was a timid little pup only a short time ago.

**MORTY:**

Morty has been coming to pawprints since he was a Puppy. He loves spending time with all the team and enjoys playing with his girlfriends Maisie, Freckles, and Rosie to name but a few! He's a big softy and enjoys having cuddles most of the day except for during scent work which he takes very seriously.

OTTO:

Otto always comes in with buckets of enthusiasm and energy. Always first to start a group zoomie, Otto loves having a good run around just as much as he loves using his nose to sniff for treats. He's a cuddly boy with lots of brains and often shows off all of his tricks for the rest of the group.

**OTTO:**

A little Schnauzer with a lot of personality! Otto is always ready to play with his best friends Zelda, Millie and Coco and you can be sure that he'll join in any zoomies that are happening. Otto loves having a cuddle on the sofa, even if he can't sit still for very long!

PATCH:

Patch has just started coming to Paw Prints and is already a favourite with everyone. He was a bit shy at first but has grown in confidence. He spends his time with the little dogs and puppies and has made friends with Piper and Peppa. He also has made friends with Digby Lorraine's dog and loves a wrestling game with him.

**PEPPA:**

Peppa is the little dog group's resident police dog, keeping all the puppies in check and making sure they are not up to mischief. Peppa loves nothing more than a big cuddle when she first comes in and big scent games where she can use her nose to find treats hidden around her.

PERCY:

Westie-cross Percy is a cheeky terrier who has an abundance of energy! He loves playing with his many spaniel friends (his current favourites are cockers Daisy and Finn) and he is also great with new dogs in the group, helping them to gain confidence and encouraging them to join in play sessions.

PETRA:

Petra is a wonderful springer spaniel who gets on with any dog, is a keen retriever and loves a fuss and cuddle! She does very well during scenting games - putting her amazing nose to work - and loves to play with either her fellow spaniel friends or Cooper the beagle!

PIPER:

Piper is a lovely little dog who's always up for a cuddle. She often sits on the sofa with Buddy and Peppa, watching and supervising the younger puppies play. Piper will never pass up the opportunity to have a play with Lottie, they love chasing each other around!

POPPY:

Poppy is a lovely natured spaniel, really easy going who is happy playing in the Labrador group or in the Spaniel group. She has been coming to Paw Prints for several years. Her best friends are spaniels Alfie and Maisie. She likes a game of chase with the Labradors and also the peanut butter scenting games.
